These exercises will reinforce your new knowledge. Then go back to the third and fourth exercises, which are « **Écrit** » and « **Oral** » and you will have more fun doing them.
- 8) When you have done your last exercises, you will submit them to pairs in the world.
- 9) The way it works is about helping each others by correcting other people's work. Don't worry, many people will correct the same exercise for the same person so at the end, the student will be able to learn with efficacy. It implies that your works will be corrected by different people from all over the world. That's the reason why it's free. So by helping others, you will be helped. Moreover, you will be able to chat with someone talking the language you're leaning. Isn't that amazing?

I wish you a lot of pleasure working with this site. To my point of view it's a wonderful tool to learn languages easily and with fun. Once you've mastered how it's working, you become addicted to it and want more and more. You may learn many different languages too.

For our students it's a way to connect with the English community without going out. Plus, it's on the web so they can use the site at home.

I'm pleased to answer any question and help you with your encountering of this site at any time today.

Have fun and spread the word!
